Trustees of Woodlawn Cemetery. Last Friday of each month.

Board of Health. First and third Tuesdays of each month at 4.30 P. M. at Dr. Nutter's office, 10 Masonic Temple.

MAYOR'S ADDRESS.

Delivered in Court Room, City Hall Building, Saturday, Jan. 1, 1898.

Gentlemen of the City Councils:

Notwithstanding the fact that there is no inauguration of a Mayor at the beginning of this municipal year, the usual executive's address is doubtless expected. It is not my intention to occupy your time by detailed reference to the condition of the various municipal departments. I have selected the most pressing and significant matters, on the whole, in the hope that they will receive the timely and careful consideration from you that their importance demands.

It is always a pleasant duty to commend fidelity in service, and to report that the labors of the several departments for the year 1897 have not only been carried on in a satisfactory manner, but the results, I trust, will prove that they have promoted the best interests of the city. We have the same obstacles to overcome as other growing cities. Like other municipalities we are trying to administer the government upon an inadequate income. The last year shows substantial progress in results, and the City Councils and heads of departments have rendered faithful and conscientious service.

In my judgment the vital problem that confronts you is that of municipal finance. To any one who has given some study to this subject will occur the same extreme difficulty, and I may truthfully say that our present means are insufficient to meet our growing demands, and that under existing circumstances, we are not warranted to hope for any material increase.

The general condition of the city finances at the close of the year 1897 are as follows:

FINANCIAL STATEMENT OF THE CITY OF NASHUA FOR THE YEAR 1897.

Resources:		
Uncollected taxes, 1896,	$1,954 04	
" " 1897,	49,318 52	
Sinking fund,	44,906 29	
Cash on hand,	2,152 01	
Total,		$98,330 86
Liabilities:		
Bonded debt,	$640,000 00	
Time notes,	57,258 91	
Demand notes,	13,200 28	
Total,		$710,459 19
Liabilities,	$710,459 19	
Resources,	98,330 86	
Net city debt,		$612,128 33
Dec. 31, 1897, net debt,	$612,128 33	
Dec. 31, 1896, " "	575,078 85	
Amount of increase of debt,		$37,049 48

N. B. It should be borne in mind that the valuation of the city property has been increased as follows:

Payment for the Greeley site,	$42,508 91	
Purchase of Norton street land for school house,	2,175 00	
Purchase of Lake street land for school house,	775 00	
Total,		$45,458 91

Increase of debt due to special appropriations, ...	$45,458 91	
Net increase of debt, . .	37,049 48	
Net amount of decrease of 1896 debt, . . .		$8,409 43

It would be well to mention in this connection that the payment for the Greeley site was not an act for which this administration is accountable. It was a judgment of the court and the closing up of a long and expensive litigation.

It will not be my purpose to dwell upon the different municipal departments in detail. I will call your attention to a few which are directly under the care and control of the City Councils. I wish first to call your attention to the Street Department. This city has eighty-eight and a quarter miles of highways, and it would be strange if some of them were not in a poor condition. I find that it is much more easy for the small per cent. to be pointed out that may seem to be in an unsatisfactory condition, while the large per cent. that are in a good condition do not receive mention at the opening of the season. When the appropriations were being made it was thought best that a less amount should be appropriated for the care of our streets and highways, for the year 1897, and the appropriation was reduced $7,000 from that of 1896, or in other words, $8,780 less than was expended in 1896. This act of the City Councils meant one of two things, namely, that less work must be done upon the streets, or if the same amount could be accomplished it must be at a much less expense. I will leave this for you to determine. I don't wish to be understood in this connection that the demand has been met. I can say that it is far from it. There are many streets that should have been improved this year, and it was the intention of the committee and commissioners that some of the more urgent demands should be met. But this was found to be impossible without an overdraft, hence the work was abandoned. In this connection I wish to call your attention to the permanent im-

provements that have been made during this year. Four thousand, two hundred and one square yards of granite block paving have been laid, including cross-walks and old stone re-laid, covering East and West Pearl streets from Spring to Walnut streets. The cost of this work, as near as can be determined, was $1.70 per square yard. For new work, this was at a much less cost than any previous year. It gives me pleasure, and surely it must be a satisfaction to the tax-payers, that the returns from forty-six cities, which use the granite block for paving, shows that the paving laid in Nashua this year stood second from the lowest in cost per square yard. Three thousand, five hundred and seventy square yards of macadam street have been laid this season at a cost of fifty-seven cents per square yard, covering Factory street from Harrison to Walnut, and Main next south of the Acton railroad to Lake street. And I would recommend that this work be continued on Main street to the bridge at the Vale mills, also on Hollis street, west of Palm, and on Amherst street, west of Auburn to Merrimack street, and on Bridge street, east of Amory to the railroad. I wish to call the Street Commissioner's attention to the care of the suburban highways, and while the different commissioners delegate this work to the residents of the different suburban districts, I would recommend that they be instructed when working upon the highways not to give their whole attention to the main road-bed, but to see that a suitable path be left free from stone and brush for the bicycle rider. I have had complaints, during the season, that when the stones were raked or picked from the road-bed they were left upon the bicycle path. This could have been avoided without more time or expense simply by a little thought on the part of the workmen. In so doing they would have pleased a large number of people. There seems to be another troublesome subject that comes under this department, it is that of collecting and disposing of municipal waste. This is a subject worthy of thought and examination, that some method may be formulated for practical guidance. Under our present

method all waste is divided into two classes. Organic waste, or garbage as termed, means the vegetable and animal offal from dwellings, hotels and markets. Inorganic waste is held to be paper, straw, rags, leather, wood, glass, iron, and every kind of worthless matter, mixed with ashes, and placed upon the street for collection. This class is called, and I think it is rightly named, rubbish. The collection of the garbage is under the direction and control of the Board of Health, and as far as I can learn it is generally satisfactory as far as it goes, but the trouble comes in the collection and the disposal of the other class. The ordinance governing the collections of the two classes provides that the two must be kept separate, and the separation should be made by the householder. When garbage, rubbish and ashes are mixed no satisfactory screening can be done. It is burned with difficulty and if used for filling grounds makes trouble for the communities. The collection of the garbage and the rubbish cost the city, for the year, $1,000 and $3,400 respectively. The latter is managed and charged to the Department of Highways and Bridges. This, you can see, is a large expenditure to be charged to a department which receives nothing in return. The amount sufficient to pay for the collection of the municipal waste should be a separate appropriation and not charged to any other department, and I would recommend that you give this matter your attention when making the appropriations.

I wish to call your attention to the great demand for sewers. This would seem to be one of the minor duties of our municipal work, but such is not the case. I have only to refer you to the large number of petitions which were received by the City Councils to prove this statement. As you know but few were reported upon and built. This was on account of the small appropriation. The sum of $3,000 was appropriated, and $1,600 of this amount was used in building new sewers. The balance was used in repairing and cleaning old sewers, catch-basins and manholes. I wish to call your attention to certain sections of the city that need better accommodation of sewer-

age. Amherst street west of Mitchell street, Lake street west of Chestnut street, Main street south of Allds street and Burke street. I have at this time asked the city engineer to prepare plans for a system of sewerage which will provide drainage as well as sewerage for that part of the city, south of Lake street and the south-eastern part of Crown Hill. This cannot be built without a large expenditure and without doubt a special appropriation for that purpose. It is my judgment that this be started during the coming year, that the demand may be met as soon as possible.

The ordinance which was passed Sept. 14, 1897, which required the New England Telephone and Telegraph company to put their wires underground, I have to say that 5,789 feet of conduits have been laid, and the wires will be drawn in early in the spring, and by June all the local telephone wires on Main street, north of Hollis street and Concord to Orange streets will be underground. It is the intention of the telephone company to remove their trunk lines, bringing them in on the side streets, by so doing Main street will be free from the great net-work of telephone wires. I wish to say in this connection that it is the intention of the Nashua Light, Heat and Power company to remove as far as possible all wires on Main street, especially those in front of the Whiting building, of which there are now sixty-five including all companies. When this is done the front of that building will be entirely free from wires.

The demand for sidewalk curbing is much in excess of the appropriation. Eight hundred feet of edgestone has been set this year, and walks have been put in by the abutters. The committee on highways and bridges found many thousand feet of curbing which had been set by the city where sidewalks have not been laid. This is strictly against the ordinance passed by the city councils, although about 1,200 feet of new walk has been laid during the year where the stone has been set many years.

I wish to call your attention to the act which passed early in the year which was to the effect that the city own and manage

its teams for street work. This movement, while it was not original with this administration, has been carried into full force, and I am satisfied it was a movement in the best interests of the city. This act not only provided the street department with good teams, at a reduction from former prices, but made a large revenue for the City Farm and House of Correction. The principal opposition that was presented to the city farm owning the teams that were used upon the streets was that the distance that they would be required to cover to and from work would be too much of a strain upon the horses. In answer to that I would ask you and the people to visit the city farm and make an inspection, or make the inspection while the teams are upon the street, and see after a full nine months trial if that opposition is not removed. It was the unanimous opinion of the committee on city farm and house of correction that all of the horses were in as good, and some of them in a better condition than at the opening of the season, April 1. All of which I feel that I can safely say is due to the watchful and systematic care provided by the superintendent of the city farm, Mr. Buckham.

I wish to call your attention to the ordinance that was passed March 9, 1897. This was passed with the purpose of controlling the purchasing of goods by the city. This act, on its passage, was criticised by some of our citizens, that it was an act that would be controlled and operated for the few. This criticism was unjust. To-day, I think I can safely say, that those who criticised the act upon its passage stand with those that framed the ordinance. The system has been in force since April 1, and I am satisfied has saved the city many dollars. The true merit of the ordinance cannot be determined until it has had a full year's trial, although at the present time it has accomplished its purpose, by showing at the close of each month the actual amount of business that has been done by each department, showing where and the amount of purchases that have been made, enabling the city clerk to make a complete settlement at the close of the year, thereby doing

away with that tremendous legacy of bills that drop upon the incoming administration.

As I said at the outset of my remarks, I have refrained from reference to many of the municipal departments. In some of them improvements have been made during the past year, and others have received better and more constant attention from those responsible for their management and supervision than formerly. These facts are well known to you and the public servants who have done their duty well and faithfully, should receive the favorable recognition due them, and demanded by the interests of the people they subserve.

A year's experience has decidedly confirmed me in this opinion that the executive work of a city depends upon the harmony and personal interest manifested by its city councils, and it gives me pleasure at this time to say that the organization of 1897 has been an admirable one, and it will be my earnest desire that this good feeling continues through the remainder of our time.

I wish to take this occasion to express my thanks to each and every member of the city councils for the generous support you have given me during the year, also for your prompt attention at the meetings, not only the regular assemblies but in the committee rooms. I trust that I may say, without overstepping the bounds of true modesty, in exercising the power invested in the office as mayor I have endeavored not only to maintain, but to advance the existing standard of capacity and efficiency. We are engaged in working out the problem of governing the city under a franchise based upon universal suffrage. It is our privilege to show that we are capable of producing results not inferior to the best that can anywhere be obtained in all that is worthy and of good report.

CITY TREASURER'S REPORT.

NASHUA, N. H.

To His Honor, the Mayor, and the City Councils of Nashua:

GENTLEMEN:—I herewith submit the report of the city treasurer for the financial year ending Dec. 31, 1897.

Very Respectfully,

WM. E. SPALDING,

City Treasurer.

Dr. *Wm. E. Spalding, City Treasurer.*

SPECIAL CALLS.

Engine No. 1 and Ladder No. 2, 1 1 1-1.
Engine No. 2, 1 1 1-1 1.
Engine No. 3, 1 1-1 1 1.
Ladder No. 1, 1 1-1.
General alarm, 1 1 1-1 1 1.
Chemical No. 1 and Hose No. 1 respond to all boxes on first alarm.
Recall, one blow.

Fire Alarm Telegraph.

This branch of the service is in excellent condition.

INSTRUCTIONS TO KEY HOLDERS AND CITIZENS.

I. Upon the discovery of a fire go to the nearest box, turn key in lock, and hold bolt back with key as it is a spring lock, pull down the hook as far as it will go, shut the door. Do not try to remove the key as it is locked in, and cannot be removed unless by one of the engineers who will, as soon as convenient, release and return it.

II. All persons giving fire alarms should remain awhile by the box so as to direct the firemen to the fire.

III. No person will give an alarm for the same fire after the first alarm has been given without an order from an engineer or the officer in command, and the so ordered will be sure to go to the same box from which the first alarm was given, and report to the chief engineer.

IV. Never signal for a fire seen at a distance; never touch a box except to give an alarm of fire; do not give an alarm for a chimney fire.

V. Never let a key go out of your possession unless called for by the chief engineer. If you change your residence or place of business, where the keys are kept, return key to the same officer.

APPARATUS AND HOSE.

The apparatus consists of four Amoskeag steam fire engines; one one-horse hose reel; two one-horse and one two-horse hose wagons; four supply wagons; one hook and ladder truck; one combination chemical and hook and ladder truck; one Babcock chemical engine, all in first class condition.

We have, at present, about eighty-five hundred feet of fabric hose in good condition.

PURCHASES.

There have been purchased during the year 1000 feet fabric hose, two supply wagons. Steamer No. 3 has been thoroughly repaired at a cost of $800. One fire alarm box added.

PERMANENT FORCE.

George O. Osborn, Chief Engineer.
A. C. Melendy, Engineer, Chemical.
Geo. Hidden, Driver, Chemical.
F. M. Holden, Driver, Engine No. 1.
F. D. Marston, Driver Hose, Engine No. 1.
Charles E. Farnsworth, Driver, Engine No. 2.
Paul Hysette, Driver, Hose, Engine No. 2.

Patrick Herlihy, Driver, Engine No. 3.
Dennis Downey, Driver, Hose, Engine No. 3.
S. P. Smalley, Driver, Hose No. 1.
John H. Kilbride, Driver, Hook and Ladder No. 1.
J. Willis Franklin, Driver, Hook and Ladder No. 2.

Estimated Value of Property.

REPORT

OF THE

POLICE COMMISSIONERS

OF THE

CITY OF NASHUA.

1897.

To His Honor, the Mayor, and the Board of Aldermen:

The Board of Police Commissioners for the city of Nashua, respectfully submit their sixth annual report for the year ending December 31, 1897.

The following is a statement of the different offences for which arrests were made and the number of the same, and showing how disposed of, including the amount of fines and costs received and paid over to the city treasurer.

For the year ending December 31, 1897.

Arrests and Causes.

Arrests, Males,	979
Arrests, Females,	104
Whole number of arrests,	1,083

Causes of Arrest.

Assault,	49
Aggravated assault	2
Assault on officer,	2
Accessory,	0
Attempt to rape,	1
Adultery,	2
Arrested for out of town officers,	8
Aiding prisoner to escape,	1

Suspended to go out of liquor business,	2
Not brought forward,	1
Total,	1,083

Lodgers.

Whole number of persons furnished with food and lodging,	2,225

Property Stolen and Recovered.

Amount of property reported stolen,	$2,943 75
Amount of property recovered,	1,965 00

Incidental Services.

Accidents reported,	4
Disturbances quelled without arrest,	24
Dogs lost and found,	0
Dogs killed,	7
Dangerous dogs, notice served to owners,	8
Dangerous sidewalks reported,	20
Dangerous streets reported,	17
Dead bodies recovered,	0
Fires extinguished without alarm,	5
Fires discovered and alarms given,	4

Intoxicated persons assisted home,	16
Lights extinguished in buildings,	0
Lights furnished for dangerous places,	0
Lost children restored,	27
Nuisances abated,	0
Obstructions removed from streets,	26
Obstruction removed from sidewalks	25
Stores found open and secured,	215
Stray teams put up,	18

Amount of Fines and Costs.

Amount of fines and costs imposed by Police Justice,	$9,317 34	
Less amount paid to witnesses and other expenses,	518 53	
Balance paid to city treasurer,		$8,798 81

By direction of the Board of Police Commissioners.

CHARLES H. BURKE, *Clerk.*

THIRTY-FIRST ANNUAL REPORT

OF THE

Trustees of the Nashua Public Library.

To the Honorable City Councils:

The Public Library of Nashua has now had an existence of thirty years, a term of sufficient length to enable the citizens to judge of its usefulness or otherwise. A brief retrospect will help your honorable board to judge of its continued growth from its beginning and also of its popularity.

The record shows that thirty years ago, the eighth day of February, 1868, the library was formally opened for the delivery of books. It then had 2801 books, the principal part of which had been contributed by the Union Atheneum and other associations and private individuals. It was an enthusiastic and auspicious opening. The levee that was held in its behalf had yielded the handsome sum of $1087.18, and the city came forward promptly with its $1000 appropriation according to agreement, to which was added about $100 from sale of catalogues and a personal donation.

The daily delivery of books averaged 77 and the committee consisting of Dr. Spalding, B. B. Whittemore and William Barrett, who made the first report to the city council say: "This enterprise has clearly proved successful beyond the expectations of its most earnest friends and advocates, and only needs the generous support of the city government and the co-

operation of the citizens to make it a permanent and efficient source of public education and improvement."

By reference to the librarian's report for the last year it will be seen that the present number of volumes is 15,671. Five hundred ninety-four new reader's cards were given out during last year making the present number out 4243 and the number of books given out upon them 57,748, being an increase of 9710 over last year. It must then be apparent that to provide for so large a number of readers involves a corresponding amount of expense and service. Two assistants to the librarian are now required, and a smaller sum than five thousand dollars will no more than meet these increased expenses when so large a proportion as 22 per cent. is absorbed by rent and nearly 7 per cent. for lighting and 30 per cent. by salaries, making an aggregate of about 60 per cent.

The card catalogue system has been in use since 1889 and is undoubtedly the best. Additions are made monthly and lists are published in the daily papers, which readers will do well to preserve as they are intended to be of special service to them. A catalogue of fiction is now in press embracing the class most sought for, namely of an historical and instructive character.

The accompanying report of the treasurer shows that the full sum of your appropriation has been expended, save the small balance of $21.89.

The trustees would emphasize the suggestion made by the librarian relative to a collection of all such matter as relates to our local history, including trade and manufactures. Time will make them valuable.

The question of securing additional room has been placed in the hands of a committee who will report at a future meeting.

The trial of the plan of opening the reading room Sunday afternoon fails to show such a demand as the trustees were given to understand existed, and it is a question that deserves consideration whether it should be longer continued.

At the annual meeting held January 24th last, the same officers and committees as last year were chosen: V. C. Gilman,

secretary and treasurer; Harriet Crombie, librarian; Sarah P. Barker and Charles F. Holman, assistants; and the undersigned a committee to make the annual report to your honorable body.

Respectfully submitted,

VIRGIL C. GILMAN,

NASHUA, February 8, 1898. *For the Trustees.*

Auditor's Report.

I have examined the foregoing account of the treasurer for th year 1897, and find the same correctly cast and properly vouched, and a balance of $21.89 in the Indian Head Bank to his credit as treasurer.

(Signed),

G. C. SHATTUCK, *Auditor.*

LIBRARIAN'S REPORT.

To the Trustees of the Nashua Public Library:

Gentlemen,—I have the honor to submit, to you, my report for the year ending December 31st, 1897.

The number of books and pamphlets given in last year's report was 14,339. There have been 1,332 added this year. This includes duplicates to fill the places of those worn out in the service. The gifts number 382 volumes. Forty-three bound periodicals have been added. The library now numbers 15,671.

Misses Mary A. and Dora N. Spalding have made another generous donation of forty bound copies of Littell's Living Age; furnishing the library with a complete set of this magazine from 1872 to the present year.

There has been a demand for books in the French language, and a few volumes, as many as it was thought our appropriation would admit, have been purchased.

Books interesting to younger readers, containing only a slight proportion of fiction, have been placed where free access can be had to them. The result has been very satisfactory, as the selections are frequently made from the more instructive and desirable literature. A lack of space makes it impossible to make the collection of books as large as we wish.

During the year 594 reader's cards have been issued for school and home use. The total number of patrons' cards is 4,243. Of the teachers only 23 have used their cards this year. They have taken for their scholars 1,407 volumes. The total number of books given for home use has been 57,748; an increase of 9,710 more than last year.

As a public library should be a place where records of local interest are preserved, it seems desirable to make a collection of material relating to our town and state. A small nucleus has been obtained and it is to be hoped it may grow into a valuable collection. Doubtless some of our citizens would contribute to this department did they know such an one was being made, and that everything of an historic value will be preserved.

A catalogue of the historical fiction in the library, and several bulletins of books on the natural sciences, have been published during the year. This winter there will be a catalogue of all the fiction.

A table furnished with children's magazines has been placed in the reading room.

Our reading room is much too small and the imperfect ventilation is another drawback to its enjoyment.

Respectfully submitted,

HARRIET CROMBIE, *Librarian.*

CITY SOLICITOR'S REPORT.

To His Honor the Mayor, and the City Councils of the City of Nashua:

Gentlemen,—Following is my report as city solicitor, from the date of my election, January 26th, 1897, to December 31st, following.

When I assumed the duties of the office there were several suits pending in our supreme court in which the city was a party.

The following have been disposed of:

1. Worcester, Nashua & Rochester Railroad vs. City of Nashua, which was an appeal from the award of damages and laying out by the county commissioners of a street to be known as Eaton street, extending southerly from Ledge street to Hollis street. The plaintiff's petition was dismissed.

2. Zepherine Bariteau vs. City of Nashua, which was a petition for assessment of damages by reason of the change of grade of Pine street, whereby the plaintiff, an abuttor on said street, was damaged, which was tried and a verdict of three hundred dollars ($300) awarded against the city.

3. During the year the library site case, so called, has been ended. The case was heard before the county commissioners and the city was defended by lawyers retained before my election, and consequently I took no part in the trial. The commissioners awarded $36,847.55 damages, which the city has since paid, and it is believed that all litigation in this matter has reached an end.

The following cases are pending:

Two against the city for services; two against the city for assessment of damages caused by change of grade in highway; one against the city for trespass; and one, an appeal from the assessment of taxes for 1896, to the supreme court, on the ground that said assessment was excessive and unequal.

And during the year there have been two suits brought against the city, one for breach of contract and the other for damages by reason of a defect in the highway whereby a horse was injured.

I have advised the city officials in the different departments whenever requested.

Have submitted written opinions on legal questions and have conferred with the members of the committee on claims several times and several claims have been adjusted.

Have tried all cases in the police court in behalf of the state whenever the city marshall required assistance.

I have, during the year, drawn many resolutions, ordinances and contracts.

Respectfully submitted,

GEO. F. JACKSON, *City Solicitor.*

REPORT OF THE COMMITTEE

ON

CITY FARM AND HOUSE OF CORRECTION

OF THE

CITY OF NASHUA,

1897.

To the Honorable Mayor and Gentlemen of the City Councils :

The committee on City Farm and House of Correction would report as follows for the year 1897, just closed:

Inventory 1896, ...	$13,052 83
Inventory 1897, ...	14,281 21
A gain on inventory of $1,228 38.	
The appropriation for 1897 was . . .	$11,500 00
Drafts drawn during the year, . . .	11,387 43
Balance on hand available, . . .	$112 57

During the year there has been paid the city treasurer $7,037.11, of which amount $5,517.28 was received for teams, $865.00 for garbage team, and $654.83 from various sources, showing a balance of $3,121.94 over and above cash receipts against the farm. The farm last year received a credit of some $300 more on account of garbage team than this year.

Then, the amount received from teams was allowed at the rate of $4 per day, against $3.50 for 1897.

This would have made a showing of some $700 to the still further credit of the farm had the prices paid in 1896 been in force in 1897, or about $1000 credit from boh garbage and other teams more than appears in this report.

Of the amount appropriated for 1897, the sum of $1,250 was set aside for the purchase of teams, fixing over the barn to accommodate the additional horses and for the purchase of harnesses.

During the year, notwithstanding the fact that there have been four additional teamsters at an expense of $100 per month, besides the grain for the horses to pay for, the farm has spent considerable less money than during 1896.

Early in the year the committee made formal application for the care of the roads from Lawndale to the State line, but were not allowed to do the work. Had these roads been placed under the care of the Superintendent of the farm there would have been a clear saving to the city of a large part of the $531.06 paid for their care during the past year.

The farm is in good condition. The stock is in fine shape. The sixteen horses kept there are upon the street every day and are, one and all, in perfect condition.

The crop of hay harvested is of fine quality and the largest for many years. Carts, sleds, harnesses, and the general tools are all carefully kept and are in good condition and are fully adequate for the present needs of the institution.

During the year a large wagon shed 26′ x 90′, has been erected, in which all the heavy carts and sleds can be stored, also a sand shed with a capacity of 250 loads of sand has been put up and is filled with carefully screened dry sand which will be used by the city upon the streets as occasion requires. Heretofore sand has been purchased of outside parties at a cost to the city of several hundreds of dollars.

Deducting the cost of commitment and charge for board at the county farm for prisoners and paupers from the cost of

running the city farm and it will be shown that the farm has been nearly or quite self-sustaining to the city instead of the usual expense.

NASHUA, N. H., Dec. 28th, 1897.

CLINTON S. MASSECK, *Clerk*,

For the Committee on City Farm and House of Correction.

Report of Trustees of the Sinking Fund.

To the Honorable City Councils:

The trustees of the Sinking Fund hereby make their annual report.

The following is a statement of all the security in the Sinking Fund December 31st, 1897, and also their value upon that date:

Six $1,000 Nashua city bonds, 4 per cent., due 1915, Nos. 171 to 176 inc., at $105.75,	$6,345 00
Nine $1,000 Nashua city bonds, 4 per cent., due 1915, Nos. 1 to 9 inc., at $106.25,	9,562 50
Six $1,000 Nashua city bonds, 4 per cent., due 1915, Nos. 10, 96, 97, 98, 99, 100, at $105.75,	6,345 00
Nine $1,000 Nashua city bonds, 4 per cent., due 1915, Nos. 15 to 20 inc. and 65, 66, 67, at $106.25,	9,562 50
One $1,000 Middleboro, Mass., bond, due 1909, No. 26, at $103.00,	1,030 00
One $500 bond, Lancaster, N.H., fire precinct, 4 per cent.,	529 25
One $6,000 note, Nashua soldiers' monument, due September, 1905, at $103.65,	6,219 00
Three $1,000 bonds, City of Nashua, due 1916, 4 per cent., at $1,075.00,	3,225 00
Cash on hand,	2,088 04
Total value of Sinking Fund, December 31st, 1897,	$44,906 29

All of which is respectfully submitted,

J. E. TOLLES,
E. H. WASON,
E. E. CHENEY,
Trustees of the Sinking Fund.

Report of the Board of Health.

To His Honor the Mayor and the City Councils:

The report of the board of health of the City of Nashua, for the year 1897, is submitted herewith.

The number of nuisances having been complained of to this board has been considerably smaller than in past years. These have been attended to in an impartial manner and that done which was thought to be for the best interest of the city.

The number of contagious diseases reported by physicians has been considerably smaller than in past years but has come in epidemics, the death rate being low. Considerable difficulty was experienced by the cases not being properly reported but this is much improved at the present time. Isolation and disinfection have been practiced as thoroughly as possible under the circumstances but during the present year new methods of fumigation are hoped for.

The city dumps, sewer outlets and disposition of garbage are still troublesome and should be improved upon.

For the first six months of 1897 monthly mortuary reports were sent out but these were suspended to curtail expenses. The appropriation for 1897 was sufficient for all work that came under this department during that time.

The whole number of deaths was 364. Estimating the population at 23,000, 364 deaths would give an annual death rate of 15.82 per 1,000.

Respectfully submitted,

C. F. NUTTER, *Chairman.*
B. G. MORAN, *Clerk.*

Report of the City Physician.

To His Honor the Mayor and the City Councils:

The city physician's report for the year 1897 is herewith submitted.

During the past year all calls from police department, together with those of the overseer of the poor, have been attended to. The amount of sickness has not been large, still, if paid for at the regular price paid physicians in general practice, would have amounted to about $1,800. Fortunately most cases have been of a minor character, thus reducing the expenses for medicine and appliances considerably to what it might be in some years.

The children of the schools have been vaccinated as they were sent by the teachers or brought by parents.

Out of the appropriation of $250 quite an amount was used to pay for bills of previous contraction, still the amount was sufficient with the exception of the fractional part of one dollar, which amount will be paid by the appropriation in 1898.

The city farm has been frequently visited and all patients there have received careful attention from attendants and those brought in contact with them. If that institution is to be continued a room should be suitably arranged for the confinement of violent or delirious patients as at the present time there is no accommodation whatever. No births. Two deaths.

Respectfully submitted,

C. F. NUTTER, *City Physician.*

Report of Milk Inspector.

To the Honorable the Mayor and Board of Alderman and City Council:

Gentlemen,—The annual report of the department of milk inspection is respectfully submitted herewith.

Personal inspection of the sanitary condition of dairies has absorbed a large part of the time of this department and the results have been more than satisfactory. A law is now pending before the city government looking to the discontinuance of old wells in the immediate vicinity of sources of contamination, and if it succeeds will prove an immense advance towards a pure milk supply.

Statistics.

Number of carts licensed,	57
" " stores "	63
Average daily consumption of milk (quarts),	11,960
Number of samples taken and analyzed,	991
" " " analyzed at request of citizens,	145
Average standing of samples (per cent.),	13.12

Legal standard, 13.00 per cent. of total solids, sub-divided as follows: Fat, 3.50 per cent.; milk sugar, 4.75 per cent.; nitrogenous matter, 4.05 per cent.; ash, 0.70 per cent.; water, 87.00 per cent.

There is a steady improvement in the general average of samples taken from year to year, partly due to a rigid inspection and partly to the improved methods of producing and handling milk which are now in use and to which the attention of producers has been repeatedly called by this department.

Respectfully submitted,

I. F. GRAVES, *Inspector.*

ANNUAL REPORT

OF THE

Trustees of Edgewood Cemetery.

To the City Councils:

In compliance with requirements of charter, the trustees of Edgewood Cemetery respectfully submit their fifth annual report, covering the season of 1897.

Improvements.

With the appropriation granted and a comparatively fair sale of burial lots, we have been able, in a measure, to continue some of the improvements contemplated, as expressed in our former reports. New plats have been graded, new paths and roadways have been constructed, trees, shrubbery and vines have been planted as in former seasons, which, with those planted heretofore, have been properly cared for; all making healthy and rapid growth and are now in thrifty condition, adding materially to the appearance of the grounds. A portion of the old cemetery has been graded and platted for single burials or small lots, thus removing from the grounds

all traces of the "potter's field" of former days. A survey has been made of the section in which it is proposed to locate the lake or pond and it is hoped that a commencement in building the same can be made the coming spring. The underbrush and wild growth on the newly acquired portions of the grounds have been partially cleared up, the chapel has been repaired and repainted, and the superintendent's lodge completed. We have been unable to build a chimney or provide heating for the chapel, but hope to do so before another winter.

The fourth payment, one hundred dollars and interest, for the land purchased of the New Hampshire Improvement company, John F. Stark, treasurer, has been made. There now remains the final payment, one hundred dollars and interest, six dollars, due June 26th, 1898.

The debt of five hundred dollars to the Pennichuck Water Works company, under contract of May 13th, 1893, for which the trustees became personally responsible, has been cancelled. It might be well to call your attention to the history of this indebtedness and say that at the time the trustees took charge of the grounds they found the water supply limited to a small pipe and consequently small head or force of water. To remedy this a contract was made with the water company, which put in mains sufficient for the increased demand, to pay for which this debt was incurred and which has been paid for from the annual appropriations rather than subjecting the city to such expense additional to each annual appropriation.

There are no outstanding bills or debts against the board or the city on account of this cemetery, except the Stark contract of one hundred and six dollars.

Meetings.

Regular stated monthly meetings of the board have been held, also such special and committee meetings as required.

Interments.

During the year 1897 the following interments have been made: Adults, 38; children, 7; re-interments, removals from other grounds, adults 3, children 3; total, 51.

Soldiers and Sailors.

Four army veterans have responded to final roll-call since our last report and the graves of two, heretofore unmarked, have been located, making now a total of 63. All of these graves are properly cared for, the mounds sodded, grass mowed, weeds kept down and all designated with a marker and flag.

Loss of Membership.

During the year one of our number, Mr. John D. Chandler, passed to the eternal beyond. He was a faithful and earnest member of the board, ever ready and willing by his presence and council to advance its interests and promote improvements of our hallowed grounds, where now repose his mortal remains. Trustee Chandler died on the 3rd of June, 1897. His burial was attended by the board, together with a large concourse of neighbors, friends and citizens.

Care of Lots.

We are pleased to report that the interest manifested by lot holders in properly caring for their lots is maintained, although mostly under the annual care system.

Trust Funds.

The Perpetual Care fund with which the board has been intrusted has been increased during the year by three bequests, amount, $500.00; and interest collected and unexpended,

amount, $44.52; making total fund at this date, $3,802.85, invested as below:

City Guaranty Savings Bank,	$300 00	
New Hampshire Banking Co.,	450 00	
Nashua Savings Bank	340 00	
City of Nashua notes,	2,712 85	
		$3,802 85

By an arrangement, made upon the request of this board, with the finance committee of your body, we have, through the mayor, been enabled to invest a portion of the fund (as shown above) in city notes bearing 6 per cent. and 4 per cent. interest.

The following named estates and persons are the contributors to our Perpetual Care fund:

Estate of Edward Wheeler,	$1,000 00	
" " Eliphaz W. Upham,	100 00	
" " Allen Wilson,	333 33	
" " Clarissa P. Abbot,	100 00	
" " Robert Harris,	100 00	
" " David and Nancy McClary,	300 00	
" " Maria H. Vose,	100 00	
" " James D. Foss,	200 00	
Heirs of Stillman Tarleton,	200 00	
Edward T. Peirce,	150 00	
Mary L. Sawyer,	150 00	
George Clarence Scott,	225 00

Trustees of Edgewood Cemetery.

REPORT

OF THE

Trustees of Woodlawn Cemetery.

To the Honorable City Councils of the City of Nashua:

The trustees of Woodlawn Cemetery respectfully submit the following as their

Annual Report.

The plan submitted by the city engineer for the laying out of the new part of the cemetery has been partly carried out during the past year, and has made a marked improvement in the general appearance of the grounds. We hope to have the whole of this section completed before the close of another season.

The planting of maple trees in the avenues has been continued during the past season. The hedges have been extended and several varieties of shrubs have been planted.

The chapel has been moved to the grove near Kinsley street, and we hope in the near future to be able to erect a substantial and proper entrance, or archway.

Eight soldiers' graves have been found this year and four soldiers have been buried, making the total present number of soldiers graves, 232: all of which are been properly marked.

Records of all meetings of the board have been kept.

About 75 headstones which had fallen over, in lots owned by parties whom the superintendent could not get trace of, have been re-set.

Mr. G. F. Sawyer has been retained as superintendent and has rendered very efficient service.

The funds bequeathed to the city by different people, for the care of lots in the Woodlawn (formerly Hollis street) Cemetery, have been transferred to the trustees, the city issuing notes to the trustees for the amount of each bequest, the total amount of the nine notes issued being $1,417.67.

Sixteen bonds have been given for amounts deposited for perpetual care of lots, including the bequest of Mr. J. C. Batchelder of $4,000.00, the whole amounting to $5,750.00.

The total Perpetual Care fund at the present time amounts to . .		$8,167 67
Which is invested as follows:		
Deposited with N. H. Banking Co., .	$100 00	
" " City Inst. for Savings, Lowell, ...	100 00	
Pennichuck Water Works shares, .	850 00	
Real estate mortgage, . . .	4,500 00	
City's notes, ...	1,417 67	
		$6,967 67
Leaving a balance uninvested of, .		1,200 00
		$8,167 67

Nineteen deeds have been given for lots sold.

The interments and removals during the year have been as follows: Interments—Adults, 108; children, 23; stillborn, 5; total, 136. From out of town, 51. Removals to other cemeteries, 2.

We feel that the work done the past year is noticeable and that the cemetery now presents a creditable appearance.

FINANCIAL EXHIBIT.

Receipts.

Balance on hand per last report, .	$416 98
City appropriation, ...	1,500 00

NASHUA, N.H., December 28th, 1897.

REPORT

OF THE

Trustees of Suburban Cemeteries.

NASHUA, N. H., Dec. 31, 1897.

To His Honor the Mayor and the Honorable City Councils:

In compliance with an act of the legislature, and the adoption of the same by the board of alderman, creating a board of trustees for the suburban cemeteries of the City of Nashua, the board hereby submit the following report:

The board of trustees, as created by the legislature, met at city hall, April 23rd, 1897, and were called to order by His Honor Mayor J. E. Tolles.

They then proceeded to organize by electing Mr. Willard C. Tolles chairman and Mr. Levi W. Goodrich secretary for the board. They next proceeded to draw lots for the term of service, with the following results:

Mr. Charles H. Lund,	term expires	March,		1898.
" Levi W. Goodrich,	"	"	"	1899.
" Benjamin F. Cotton,	"	"	"	1900.
" Samuel P. Wilson,	"	"	"	1901.
" Willard C. Tolles,	"	"	"	1902.

The board has visited the several burial places and find them in a sadly neglected condition.

In the Roby yard the fence and gates have been repaired but there is still work needed on the walks to put the yard in a proper condition.

In the Gilson yard little more can be done than to keep the bushes and grass mowed and cleaned up.

In the Old South yard an entire new picket fence is needed along the sides adjoining the school house lot. The walls on the south and west sides of the yard should be re-laid at once as they are in a most neglected condition. The board have in view other improvements in this yard.

In the Pratt yard there is most urgent need of improvements. It has been said that there are restrictions upon the front part of the yard but diligent search has failed to verify the report. This yard should be surveyed and laid out in an artistic manner, with reference to anticipated improvements in the near future. Already the new addition to this yard has been cleared and such improvements made as our meagre means allowed, nevertheless these improvements demonstrate that this plot of land can be made one of the most attractive burial places in the city and the board would most respectfully ask of the honorable city councils that in making the annual appropriations that the suburban cemeteries be liberally remembered in order to carry forward the improvements so much desired, not only by the trustees but by those who have lots in this yard.

In regard to our finances: We have received from the city $79.00, and our finance committee has approved bills to the amount of $65.55; leaving a balance of $13.45 to carry to the account of 1898.

All of which is respectfully submitted,

LEVI W. GOODRICH, *Clerk.*

Report of Park Commissioners.

To the City Councils of the City of Nashua:

Gentlemen:—In accordance with the requirements of the amended act creating the board of park commissioners, we beg leave to submit the following as our annual report for the year 1897.

After the re-appointment of Mr. Davis as a member of this board, by his honor the mayor, and his confirmation, the board met on the 30th day of March, and organized by the election of Mr. Chas. W. Morrill as president and Mr. C. W. Hoitt as secretary.

The plan for the North common, which had been contracted for in 1896, was received from Mr. J. Woodward Manning, the landscape engineer, showing a general plan of laying out with walks and drives, and for planting with shrubbery and trees and the general development of this common. Additional to the general plan, he has submitted working plans by which the plat is divided into sections, the grades established for the drives and walks, and directions given for planting and locating shrubs and trees, and the several varieties or kinds to be used, so that the work may be taken up by sections and one completed before another is entered upon. These plans are now in the safe of the city engineer, who has kindly given us accommodations therefor. But very little has been done in this work on account of the limited appropriation at our disposal.

At the beginning of the season we found that a few of the trees planted in 1896 on the South common had died, and the same were replaced and other and additional trees planted on the north border of this common, there being some sixty silver maples and fifty Carolina poplars used in the work.

For the accommodation and enjoyment of the citizens in that section, a dozen new settees were purchased and located on this common, the same being removed and stored through the winter. There should be more purchased and placed about the commons.

The band stand on this common was painted and placed in good repair, but more or less trouble has been met with, and expense incurred on account of the depredations of those who went not to enjoy, but, seemingly, to destroy the advantages which we were attempting to give to the people. In May a communication was received by this board from the Christian Advent church of Nashua, asking that they might use the common for religious services the first Sunday in June, which same was granted, conditioned only that this board and the City of Nashua should in no way be held responsible to police the grounds or make any preparation for such meeting. The use of same ground was granted on two or three subsequent occasions to same parties.

The drive-way or track on the North common was repaired and placed in proper condition for use early in the season, that part or portion within the drive-way was rented, the rental received being shown in the financial report of our treasurer. The grass on other portions of the common was also sold and disposed of, the proceeds therefor being collected and received by the treasurer. In July a proposition was made to the board that the grounds be let for exhibition purposes to Forepaugh's circus to be so used on the 1st day of August following. This proposition was accepted and that part or portion extending from Amherst street to Sargent avenue, lying between the drive-way and the school house grounds, was so let, the treasurer receiving a rental of $100.00 therefor. Privileges additional and outside of those so let were also sold for the day, and the amount received therefor by the treasurer is accounted for by him. Certain bills or expenses were incurred in connection with this, which also are accounted for. That part or portion of this common lying north and westerly of the school house should be graded properly, grassed and

planted, but, with the limited funds at our command, it was not deemed advisable to enter upon such an undertaking fearing the job could not be so completed. Arrangements have since been made by which the street commissioners can use that part or portion requiring a heavy grade by filling with certain material which will be proper for such a location, and free from any nuisance features, with advantage to them and their departments and with a saving of expense to this board. We are hopeful in the coming season to begin work under the proposed plan and present with our next report a part or portion of such completed.

During the year last past, the special care in the cutting of the grass, repairing of the broken portions of the turf and proper watering of the same, has been thrown wholly upon this board and the expenses attendant upon such have been paid out of our appropriation.

In August last past a resolution having been passed by the city councils, placing the Greeley farm under the control and care of this commission, a meeting was called of the trustees of said Greeley farm and this commission, to settle and adjust all matters pertaining thereto and turn the custody of said farm over to this board. There were certain unsettled matters which this board deemed should be adjusted and arranged before accepting the same, on account of which this board at that time, declined to accept such care and custody until the same were so arranged and adjusted. We are now informed that this has been done and that the same will be turned over and accepted at an early date, thus imposing upon this board additional duties and property to care for.

In the near future it is hoped and expected that there will be quite a heavy demand for trees and shrubs for the proper planting of the commons, as well as the Greeley farm property, and it is the judgment of this board that some provision should be at once made therefor in the way of establishing a nursery of small plants of evergreen and deciduous trees, so that the same being purchased in small sizes could be planted and grown in such nursery to the proper size when so needed

for such planting, it being the purpose of this board to so establish such a nursery on the Greeley farm property where the same could be cared for at a very trifling expense.

For the proper development of this Greeley farm property, for the purposes set forth, and to carry out the intention of the donor, it seems necessary that a proper plant and working plan should also be made for this Greeley farm property, and it is the intention of this board to procure such at an early day, so that whatever may be done shall be completed in accordance with such plan.

CHARLES W. MORRILL,
C. W. HOITT,
HENRY H. DAVIS.

ORDINANCES

AND

RESOLUTIONS

Passed during the year

1897.

RESOLUTIONS AND ORDINANCES.

A JOINT RESOLUTION.

Authorizing the Mayor and City Treasurer to hire Money.

That the mayor and city treasurer for the time being are hereby authorized to hire money to pay the current expenses of the several departments, and any outstanding notes, city scrip, certificates of stock, bonds or evidences of the city becoming due and to give promissory notes of the city therefor.

Passed Jan. 1st, 1897.

A JOINT RESOLUTION.

Adopting Joint Rules and fixing time for holding Regular Meetings.

That the joint rules of the city councils for 1896 be and the same are adopted for 1897 until otherwise ordered and the time for holding the regular meetings shall be on the second and fourth Tuesdays of each month at seven o'clock and thirty minutes P. M.

Passed Jan. 1st, 1897.

A JOINT RESOLUTION.

Instructing the City Clerk to make Reports.

That the city clerk be and is hereby instructed to prepare and present at the first regular meeting of each month, for the

information of the city councils, a sheet showing the amount of the bills approved in each department, including those approved on the first day of the month in which the report is made and the balance unexpended.

Passed Jan. 1st, 1897.

A JOINT RESOLUTION.

Relieving Incidental and Salary Accounts.

That the finance committee be instructed to add the following named departments to the list for recommended appropriations. Assessors, board of health, milk inspector, insurance, lands and buildings and police department.

That the said committee shall only include the following as salary account subject to the election of city auditor. Mayor, city clerk, tax collector, city treasurer, city solicitor, city messenger, clerk of common council. All others to be considered in the recommendation of the several departments in which they respectively belong and charged to the same.

Passed Jan. 26th, 1897.

A JOINT RESOLUTION.

Appointing Special Committee to examine Conditions of Greeley Farm Title and its future control.

That joint special committee consisting of his honor the mayor and president of common council two aldermen and two councilmen be appointed to examine the conditions upon which the city holds the Greeley farm and make such recommendations as to the future management or control of same as may seem advisable.

Passed Feb. 9th, 1897.

A JOINT RESOLUTION.

Appointing a Special Committee to investigate the Damage to the City caused by the Metropolitan Water Co., diverting the Nashua River.

That a committee of six consisting of his honor the mayor, president of the common council, and two members from each board be appointed to investigate the damage to city of Nashua, which will result to said city by the taking of water and diverting the same from the channels of the Nashua river. Said committee is authorized to employ counsel and have engineers to estimate said damage and report their doings, findings and recommendations to the city councils.

Passed Feb. 23rd, 1897.

A JOINT RESOLUTION.

Transferring Bequests to Trustees of Woodlawn Cemetery.

That any and all gifts and bequests made to the city of Nashua for the care and maintenance of lots located in Woodlawn cemetery shall be and are hereby turned over to the trustees of said Woodland cemetery, in compliance with the act of the legislature, incorporating said board of trustees.

That the mayor is hereby authorized and empowered to make such transfer, and to pay over to said board any and all sums due as interest or income on such gifts or bequests and unpaid; and for the carrying out of the same the mayor is hereby authorized and empowered to make and issue promissory notes of the city for the original amount of each of such bequests or gifts, and deliver the same to said board of trustees in lieu of cash, said notes bearing date of March 1, 1897, paying over to said board in cash, from money not otherwise appropriated, any and all sums of interest or income due and unpaid.

Passed Feb. 23rd, 1897.

AN ORDINANCE.

To regulate the contracting of Bills for Materials and Supplies.

Section 1. No city official or person, unless specially authorized by the city councils, shall make any contract for or purchase any materials or supplies for or in behalf of said city, unless he shall have an order signed by the mayor, approving said contract or authorizing said purchase.

Section 2. This ordinance shall apply to all departments and officials over which the city councils have control of the expenditures.

Section 3. This ordinance shall take effect upon its passage.

Passed March 9th, 1897.

AN ORDINANCE.

Defining the Duties of Street Commissioners.

Section 1. No street commissioner shall employ any teams, other than city teams, to work upon the public highways, without first obtaining permission of the committee on highways and bridges, or the board of mayor and aldermen; and he shall make monthly statements to the committee on highways and bridges, showing a detailed account of his expenditures.

Passed March 9th, 1897.

A JOINT RESOLUTION.

Authorizing the Committee on City Farm to purchase Teams and Remodel the Barn.

That the committee on city farm are hereby authorized to purchase for the city of Nashua, three additional two-horse teams; that said committee is further authorized to expend a sum not exceeding three hundred dollars in remodeling the barn suitably for the stabling of said teams.

That said committee shall not expend over three hundred and fifty dollars for each of said teams complete, to wit, wagons, horses and harnesses; that said committee is further authorized whenever requested by the committee on highways and bridges to purchase an additional team at a cost not exceeding three hundred and fifty dollars complete; that said teams, when purchased, shall be inventoried as property of the city farm, and kept for the purpose of letting the same to the street department.

Passed March 9th, 1897.

A JOINT RESOLUTION.

Authorizing the Disposal of Old School Buildings situated on Palm Street and Belvidere Schoolhouse Lots.

The joint standing committee on lands and buildings is hereby authorized to sell and dispose of each of the old wooden buildings situated upon the school lot between Palm and Pine street, and between Bridge and Union street, commonly called Palm street school and Belvidere school respectively.

Passed March 9th, 1897.

A JOINT RESOLUTION.

Authorizing Board of Health to make Contracts for the Collection of Garbage.

That the "Board of Health" is hereby given the power to advertise for proposals and make contracts, for the collection of garbage, throughout the city, to any person or persons, who shall agree to collect the same without expense to the city. Said person or persons furnishing the "Board of Health" proof of their responsibility. Also that if any consideration be received for the contract above stated all monies shall be paid to the city treasurer, quarterly, and all contracts shall be

on file at the office of city clerk. All garbage shall be collected in closed recepticles under the supervisions of the Board of Health said board to have power to let or lease any apparatus now owned by the city and kept for this purpose if they believed it advisable to do so, not including horses or other apparatus necessary for use of city.

The "Board of Health" shall have the power to declare any contract null and void if at any time the contractor should fail to perform his duty to the satisfaction of the board. If no satisfactory arrangement can be made lessening the expense to the city the board can at any time return to the present system of collecting.

Passed March 23rd, 1897.

A JOINT RESOLUTION.

Authorizing the City Treasurer to invest the Hunt Library Fund.

That the city treasurer be and is hereby authorized to loan to the city of Nashua, the sum of six thousand, five hundred, sixty-four dollars and forty-one cents, now in his hands and

uninvested, belonging to the fund known as the Hunt Library Fund; and the mayor and the city treasurer are hereby authorized to execute a note in behalf of the city for said loan.

Passed March 23rd, 1897.

A JOINT RESOLUTION.

Appointing a Committee to Purchase the Pennichuck Water Works.

That a committee be appointed by the mayor, which shall consist of the mayor and two members of the board of aldermen, and two members of the common council, one of the latter to be the president, and two citizens to consider the advisability of purchasing the corporation known as the Pennichuck Water Works, for the city of Nashua, as per permission given by special act of the legislature, approved June 28, 1873.

That the above committee be appointed by the mayor.

Passed March 23rd, 1897.

A JOINT RESOLUTION.

Appointing a Special Committee to Ascertain and Negotiate the Amount of Damages which the City of Nashua is likely to Suffer by Reason of the Diversion of Water from the Nashua River by the Commonwealth of Massachusetts.

That his honor, the mayor, and the president of the common council, and Thomas E. Ingham, James M. Taylor, Edward E. Cheney and Daniel F. Runnells, be a special committee to ascertain the amount of damages which the city is likely to suffer by reason of the diversion of water from the Nashua river, by the commonwealth of Massachusetts, and to negotiate

a settlement for the same with the Metropolitan Water Board of said state, and report the same to the city councils for their acceptance.

Passed March 31st, 1897.

A JOINT RESOLUTION.

Omitting Regular Meetings.

That the second regular meeting of the city government be omitted during the months of May, June, July, August and September.

Passed May 11th, 1897.

A JOINT RESOLUTION.

Authorizing the Committee on Lands and Buildings to sell at Public Auction a Lot of Land situate at the Corner of Webster and Stark Streets.

That the lands and buildings committee be hereby authorized to sell at public auction under the conditions herein named, the following described property of the city of Nashua:

A certain lot of land situated in said Nashua, bounded and described as follows: Beginning at the north-west corner of Webster and Stark streets and running northerly one hundred and twenty-five feet more or less by said Webster street, thence running westerly forty-two feet more or less by land of the city of Nashua, thence running southerly one hundred and twenty-five feet more or less by land now or formerly of Andrew F. Sawyer, thence running easterly thirty-seven feet more or less by said Stark street to the place of beginning.

Said lot containing about five thousand square feet.

The minimum price for which said lot shall be sold shall be three hundred dollars.

The mayor is hereby authorized to execute in the name of

the city a deed of the above described lot and deliver the same to the purchaser.

Passed July 13th, 1897.

A JOINT RESOLUTION.

Appointing a Joint Special Committee to consider the Petition of George Nagle and Others for a New School Building.

That a joint special committee of the city councils be formed consisting of his honor the mayor and two aldermen, (said aldermen to be appointed by the mayor) the president of the common council and two councilmen, (said councilmen to be appointed by the president of the common council) to consider and investigate the petition of George Nagle and others addressed to the board of education, for a new school building in the vicinity of Lake street, west of the Sandy pond, also to consider the report of a special committee of the board of education accompanying this petition and which has been referred to the city councils.

This committee to report their findings at the next regular meeting of the city government.

This special committee to confer with a special committee of the board of education which has been appointed for a like purpose.

Passed July 13th, 1897.

A JOINT RESOLUTION.

In Relation to the Time for the Payment of Poll Taxes.

That the time for the payment of poll taxes in the city of Nashua, shall be on or before Sept. 1, 1897, and if such tax shall then be unpaid the collector is directed to proceed in the collection of the same according to sec. 19, chap. 60 of the public statutes of the state of New Hampshire.

Passed July 13th, 1897.

A JOINT RESOLUTION.

Placing Greeley Farm under the Control and Care of the Park Commission.

That the city of Nashua place the Greeley farm, so-called, situated on Concord street, said Nashua, under the control and care of the park commissioners of said city.

Said park commissioners to manage and control said farm, under such rules and regulations as they may prescribe, not inconsistent with the terms of the will of the late J. Thornton Greeley.

Passed Aug. 10, 1897.

A JOINT RESOLUTION.

Authorizing the Purchasing of Land for Lake Street Schoolhouse, so called, and to Procure a Loan for Purchasing the Same.

That his honor, the mayor be authorized to purchase a certain tract of land situated in said Nashua, at the corner of Lake and Munroe streets, and on the Westerly side of Linwood street, known as lots numbered 48, 49, 50, and 51, on plan of land No. 136. Said plan being on file in the office of the register of deeds for the county of Hillsborough. The price of said land being seven hundred and fifty dollars ($750.00).

Also to purchase a triangular piece of land owned by one Henry Ratte.

Said Ratte land being valued at twenty-five dollars ($25.00).

Said lots of land to be purchased for the purpose of erecting a school building.

That the sum of seven hundred and seventy-five dollars ($775.00) be appropriated from the treasury of the city of Nashua, and that the mayor and city treasurer be authorized

and empowered to issue a note of said city payable in one year for said sum of seven hundred and seventy-five dollars ($775.00).

Passed Sept. 14, 1897.

A JOINT RESOLUTION.

Transferring Bequests to Trustees of Suburban Cemeteries.

That any and all gifts and bequests made to the city of Nashua for the care and maintenance of lots located in suburban cemeteries shall be and are hereby turned over to the trustees of said suburban cemeteries, in compliance with the act of the legislature, incorporating said board of trustees.

That the mayor is hereby authorized and empowered to make such transfer, and to pay over to said board any and all sums due as interest or income on such gifts or bequests and unpaid; and for the carrying out of the same the mayor is hereby authorized and empowered to make and issue promissory notes of the city for the original amount of each of such bequests or gifts, and deliver the same to said board of trustees in lieu of cash, said notes bearing the date of Sept. 1, 1897; paying over to said board in cash from money not otherwise appropriated any and all sums of interest or income due and unpaid.

Passed Sept. 14th, 1897.

A JOINT RESOLUTION.

Creating a Joint Special Committee for the Building of a School House on Lake Street.

That a joint special committee consisting of his honor the mayor and one alderman to be appointed by the mayor, president of the common council, and one councilman to be appointed by the president.

Said committee to act with a like committee of the board of education, for the purpose of erecting, heating, and ventilating a proper school building, on land recommended to be purchased by the city, and situated at the corner of Lake and Munroe streets.

Said committee when organized, shall decide on a plan for said school building, and report the estimated cost of the same to the city council for their consideration.

Passed Sept. 14, 1897.

AN ORDINANCE.

Authorizing the New England Telephone and Telegraph Company, its Successors and Assigns, to Lay and Maintain Underground Cables, Wires and Manholes and to Erect and Maintain Distributing Poles.

Section 1. The New England Telephone and Telegraph Co., for itself, its successors and assigns, is hereby authorized to construct and maintain underground conduits, cables and wires for the conduct of its business in such of the streets of the city as the board of mayor and aldermen may deem advisable and to construct therein and maintain the necessary manholes and house and pole connections; also to erect and maintain distributing poles at the termini of such said conduits and at suitable distributing points; all of which shall be done in accordance with the regulations hereinafter provided and subject to such ordinances in addition to or amendment hereof as may hereafter be passed.

Section 2. The said conduits and appurtenances shall be of suitable kind and construction such as said board shall approve and the work shall be done in a thorough manner and to the approval of the board of aldermen or any officer of the city whom the board may select. The said distributing and other poles shall be of suitable height and other dimen-

sions and of such form and material and so located as to be satisfactory to the board of aldermen, and shall be subject to their approval or the approval of any person or persons whom the board of aldermen may select.

Section 3. The surface of the street shall not be disturbed for the purpose of laying or removing wires or conduits or of erecting or removing distributing poles without a permit from the board of aldermen authorizing the work to be done indicating the time, manner and place of opening such street and the time within which such work shall be completed; nor for the purpose of repairs without a permit from the street commissioner.

Section 4. When an opening is made in the street for any of the purposes aforesaid the portion of the street opened shall be restored to a condition satisfactory to the superintendent of streets and shall be kept in such condition for one year thereafter, and if not so restored and maintained by said company, said superintendent of streets may cause the same to be done at the expense of said company.

Section 5. No permit shall be required for the opening of manholes for the purposes of drawing in, removing or repairing wires and cables; and when said company has obtained the permit of the board of aldermen for conduit locations in any street or streets and has constructed its main line of conduit under such permit in any street, it may from time to time thereafter lay and connect with such main conduit ducts, cables and wires for house and distributing pole connections, with the permit and under the supervision of the superintendent of streets.

Section 6. The said company in laying, repairing or removing its wires or conduits shall not disturb or in any way interfere with any gas or water pipes or sewers or pipes therewith connected.

Section 7. In case the city of Nashua finds it necessary to construct or enlarge sewers or other public works in streets where conduits are laid, which shall require changing the

location of said conduits, said changing shall be at the expense of said company, who shall forthwith carry out the same.

Section 8. Said company shall not remove its conduits unless permitted to do so by the board of mayor and aldermen.

Section 9. No permits shall be granted, or if granted, shall be valid to disturb the surface of the street for any of the purposes aforesaid until said company has executed an agreement in a form satisfactory to the city solicitor, providing ;

First :—That in every underground conduit constructed by said company one duct not less than three inches in diameter shall be reserved and maintained, free of expense, for the use of the fire, police and telegraph signal and telephone wires belonging to the city and used exclusively for municipal purposes and that the superintendent of the fire alarm or any person duly authorized by the city shall be allowed access to said conduits at all times and that the said city shall be allowed facilities and privileges in putting in or taking out wires equal in all respects to those of said company.

Second :—That said company will indemnify and save the city harmless against all damages, costs and expense whatsoever to which the city may be subject in consequence of the acts or neglect of said company, its agents or servants, or in any manner arising from the rights and privileges granted it by the city.

Third :—In addition to the aforesaid agreement said company shall, before a street is disturbed for the laying of its wires or conduits, execute its bond in a penal sum of not less than five thousand (5,000) dollars conditioned to fulfill all its said agreements with the city and its duties under this Ordinance.

Passed September 14, 1897.

A JOINT RESOLUTION.

Authorizing the Purchase of Land for Norton Street School House So-called and Procure a Loan for Purchasing the Same.

That his honor, the mayor, be authorized to purchase a certain tract of land situate in said Nashua, at the corner of Shattuck and Norton streets owned by Ayers and on the north side of Shattuck owned by Nelson, containing about 23,000 square feet.

Said land to be purchased for the purpose of erecting a school building thereon.

That the sum of two thousand one hundred and seventy-five dollars be appropriated from the treasury of the city, and that the mayor and city treasurer be authorized and empowered to issue a note of said city payable in one year for said sum of two thousand one hundred and seventy-five dollars therefor.

Passed Sept. 30, 1897.

A JOINT RESOLUTION.

Transferring Land Known as Base Ball Grounds to the Trustees of Woodlawn Cemetery.

That the trustees of Woodlawn cemetery shall have the control and management of the land known as base ball grounds, the same being a portion of the land purchased by the city of Nashua on the 14th day of November, 1872, situated on the southerly side of Kinsley street.

Passed Oct. 26, 1897.

A JOINT RESOLUTION.

Authorizing the City Treasurer to Invest the Hunt Library Fund.

That the city treasurer be and is hereby authorized to loan to the city of Nashua, the sum of one thousand eight hun-

dred and fifty-one and 14-100 dollars now in his hands and uninvested, belonging to the fund known as the Hunt library fund; and the mayor and the city treasurer are hereby authorized to execute a note in behalf of the city for said loan.

Passed Oct. 26, 1897.

A JOINT RESOLUTION.

Appointing a Special Committee to Consider the Advisability of Remodeling and Repairing City Hall Building.

That a special committee be appointed consisting of his honor the mayor and two aldermen to be appointed by the mayor, the president of the common council and two councilmen to be appointed by the president, Thomas D. Luce and Charles W. Hoitt, to make investigations and consider the advisability of remodeling and repairing city hall building in said Nashua, and submit their report to the city councils at a regular meeting holden in the month of January or February next.

Said report to contain an estimate of the cost and general plans for remodeling or repairing the same.

Passed Oct. 26, 1897.

A JOINT RESOLUTION.

Of Thanks to Joseph F. Scott, Superintendent, and Others.

Whereas, on the 21st instant the city councils and other city officials together with His Excellency the Governor, by invitation, visited the Concord reformatory, Concord, Mass., and various historical sites in said Concord, also Boston house of correction at Deer Island, and the battleship Iowa in Boston Harbor, Therefore be it

Resolved: That we hereby extend our sincere thanks and

appreciation to Superintendent Scott of the Concord reformatory and his assistants, to Commissioner Marshall of Boston, Mass., and his assistants, to Superintendent Gerrish of Deer Island and his assistants, and Lieut. H. O. Stickney of the battleship Iowa for the courtesy and attention received from each, and be it further

Resolved: That our thanks and appreciation be extended to Chas. E. Lee, superintendent of the Boston & Maine railroad, for the courtesies in arranging railroad accomodations, and to John A. Fisher, of the Nashua Street Railway, for electric car accomodations during said journey. And be it further

Resolved: That a copy of these resolutions be sent to each of these gentelmen by his honor the mayor and the city clerk.

Passed Oct. 26, 1897.

A JOINT RESOLUTION.

Authorizing Appropriation of Funds for the Payment of the Greeley Lot So-called, for a Public Library, Also for the Payment of Counsel Fees and Costs of Hearing Before County Commissioners.

That the sum of forty thousand seven hundred and ninety-seven dollars and fifty-four cents ($40,797.54) be and hereby is appropriated for the payment of land taken by vote of the board of mayor and aldermen under date of January 14, 1896, for the purpose of erecting the Hunt library thereon. Said tract of land is commonly known and called the Greeley site.

Also that the sum of one thousand seven hundred and eleven dollars and thirty-seven cents ($1,711.37) be and hereby is appropriated for the payment of expenses of witnesses, of counsel, and all charges of county commissioners for hearing.

This resolution covers the amount awarded against the city of Nashua by the county commissioners as per their report on file in the Supreme Court, and with interest figured to October

27, 1897, and also for the payment of costs and counsel fees in the same.

		$42,508 91

The mayor and city treasurer are hereby authorized to issue a city note for the sum of forty-two thousand five hundred and eight dollars and 91-100 dollars for the payment for said land and the expenses above enumerated.

Passed Oct. 26, 1897.

A JOINT RESOLUTION.

Amending Resolution No. 1219.

That resolution 1219 entitled "Authorizing appropriation of funds for the payment of the Greeley lot so called, for a public library, also for the payment of counsel fees and costs of hearing before county commissioners" passed by the mayor and aldermen and common council of said city of Nashua

October 26th, 1897, be and is hereby amended by striking out

"The mayor and city treasurer are hereby authorized to issue a city note for the sum of forty-two thousand five hundred and eight dollars and 91-100 dollars for the payment for said land and the expenses above enumerated."

And by inserting in said resolution in place of the words recited and striken out, the following:—

"The mayor and city treasurer are hereby authorized to issue a city note for the sum of forty-two thousand five hundred eight and 91-100 dollars, to be dated October 29th, 1897 and made payable six months after its date for the payment for said land and the expenses above enumerated. The discretion of fixing the place of payment and the rate of interest of such note and the sale thereof is hereby delegated to the city treasurer. Said note to be issued pursuant to the provisions of the municipal bonds act 1895."

Passed, Nov. 9, 1897.

A JOINT RESOLUTION.

Appropriating Funds for the Erection of Lake Street School House so called.

That the sum of seven thousand five hundred dollars ($7,500.00) be and is hereby appropriated for the building and furnishing of a school house to be erected on land recently purchased and situate on Lake street in said city. And the mayor and city treasurer are hereby authorized and empowered to execute a note to be dated Feby. 1, 1898 for the term of ten months in the name of the city for the purpose of raising said sum.

Passed, Nov. 23rd, 1897.

A JOINT RESOLUTION.

Disposing of Money from Building on Library Lot.

That the sum of eleven hundred and forty and 71-100 dollars (1,140.71) which has been received as rent of buildings situate upon the Greeley lot, so called, and now in the possession of his honor the mayor be turned over to the city treasurer and become a part of the city's assets.

Passed, Dec. 14th, 1897.

THIRTY-FIRST ANNUAL REPORT

—OF THE—

BOARD OF EDUCATION,

—AND—

SUPERINTENDENT OF SCHOOLS,

—OF THE—

CITY OF NASHUA, N. H.,

FOR THE YEAR 1897.

NASHUA, N. H.:
TELEGRAPH PUBLISHING CO., PRINTERS.
1898.

BOARD OF EDUCATION.

OFFICE OF THE CLERK.

NASHUA, N. H., Jan. 28, 1898.

At the regular meeting of the Board of Education, Mr. James H. Fassett, superintendent, made his annual report for the year 1897. The board voted to accept the report and the committee on printing was instructed to have four hundred of the same printed.

STEPHEN N. BARKER,
Clerk, Board of Education.

BOARD OF EDUCATION, CITY OF NASHUA.

ORGANIZED FOR THE YEAR 1898.

JOSEPH FLATHER, President.

STEPHEN N. BARKER, Clerk.

MEMBERS:

TERM EXPIRES DECEMBER 31, 1898.

Name.	Residence.	Place of Business.
Rev. Jesse M. Durrell,	14 Mulberry St.	
James H. Tolles,	49 Franklin St.,	30 Quincy St.
S. N. Barker,	71 Concord St.,	11 High St.
C. B. Hammond,	50 E. Pearl St.,	182 Main St.

TERM EXPIRES DECEMBER 31, 1900.

Joseph Flather,	20 Arlington St.,	Flather & Co., Crown St.
Geo. A. Underhill,	121 Allds St.,	Masonic Temple.
Fred Gowing,	Currier Block,	State Library, Concord.
I. G. Anthoine,	17 Manchester St.,	Odd Fellows Bldg.

TERM EXPIRES DECEMBER 31, 1902.

John H. Vickery,	12 Spring St.,	Cor. Main and High Sts.
T. A. McCarthy,	130 Pine St.,	Spalding Block.
Lester F. Thurber,	4 Manchester St.,	67 E. Hollis St.
Arthur P. Baker,	26 Berkeley St.,	44 Spring St.

Regular meeting of Board, last Friday in each month at 7:45 o'clock.

SUPERINTENDENT OF SCHOOLS.

JAMES H. FASSETT.

Residence, 4 Holman Block.

Office: High School Building, Spring Street.

Office Hours: 8:30 to 9:00 A. M., 4:30 to 5:00 P. M. on Monday, Tuesday and Wednesday; 4 to 5 P. M., Thursday and Friday. Afternoon office hours one half hour earlier during the winter months.

TRUANT OFFICER.

Henry B. McCaffrey, Residence, No. 99 Elm Street.

STANDING COMMITTEES.

FINANCE—Messrs. Underhill, Baker, Vickery.

SCHOOLHOUSES—Messrs. Thurber, Hammond, Tolles.

TEACHERS—Messrs. Gowing, Hammond, Barker, Vickery, Durrell.

SUPPLIES—Messrs. Barker, Anthoine, McCarthy.

TEXT BOOKS—Messrs. Hammond, McCarthy, Durrell.

MUSIC—Messrs. McCarthy, Tolles, Gowing.

DRAWING—Messrs. Tolles, Underhill, Vickery.

PHYSICAL TRAINING—Messrs. Baker, Gowing, Anthoine.

PRINTING—Messrs. Barker, Flather, Fassett.

SANITATION—Messrs. Anthoine, Hammond, Underhill.

ATTENDANCE—Messrs. Durrell, Vickery, Thurber.

BOUNDARIES—Messrs. Vickery, Baker, Thurber.

SUB-COMMITTEES.

SPRING STREET SCHOOL—Messrs. Underhill, Gowing, Anthoine.

MT. PLEASANT SCHOOL—Messrs. Barker, Thurber, Tolles.

SUBURBAN NOS. 1, 2, 3, 4 AND 5—Messrs. Tolles, Hammond, Thurber.

MULBERRY STREET, SUBURBAN NOS. 6 AND 7—Messrs. Baker, McCarthy, Durrell.

SUPERINTENDENT'S REPORT.

Gentlemen of the Board of Education:

I herewith submit my fifth annual report, the thirty-first of its series.

In what follows I shall endeavor, in as concise a way as possible, to speak of what has been accomplished during the past year and also of the present needs of the schools as they appear from my point of view.

The one great improvement during 1897 was the occupation of two new school buildings, namely, the Palm street and the Belvidere. It would be hardly possible to find a greater contrast than the one presented between the old Belvidere and Palm street buildings and the structures which we now occupy. In place of wood stoves, by which one end of the room was kept much too hot and the other much too cold, we have a modern system of heating, by which warm fresh air is constantly distributed about the room; the close, impure atmosphere of the old buildings is now avoided by an almost perfect system of ventilation which is at all times under the control of the janitors and teachers. The light is also vastly superior, the seats and desks are better and the large roomy basements give ample chance for exercise during cold and stormy weather.

As might have been expected, the pleasure which the children derive from their cleanly and attractive surroundings has greatly improved the attendance, and, while formerly ab-

sence and truancy were frequent, the teachers now experience very little trouble in this direction.

The city government has acted wisely in following the advice of the Board of Education by so promptly recognizing the need of greater school facilities in the southwestern part of the town, and also by the purchase of land on Laton street, thus providing for the erection in the future of a school building for the relief of Mount Pleasant.

When these school houses are completed, unless we have an unusual increase in attendance, they will easily provide for all the pupils in these districts. There is, however, one part of the city which even now needs larger and better school accommodations. I refer to the district in the neighborhood of Edgeville. Through the lack of a building in this section, the Arlington street school has been overcrowded in several of its rooms, even so far as to compel the use of a hallway.

For the past two years an additional room has been needed at the Spring Street Grammar where now there are two rooms with over sixty pupils each. If the superintendent's office is removed to the City Hall, the present office could be turn very easily into a room which would furnish accommodations for forty-two pupils. I would recommend also that the chemical laboratory be moved from the basement to the third floor of this building.

INCREASE IN NUMBER OF PUPILS.

The schools have from one hundred to one hundred and fifty additional pupils to provide for each year.

By keeping this in mind it is readily seen that it will be a question of but a few years when more schools will be demanded. Another conclusion may also be derived from this fact, viz., that, inasmuch as each pupil costs the city in the neighborhood of twenty-five dollars a year, this increase of over one hundred pupils means an increased expenditure each year of about three thousand dollars.

SUPPLIES.

It has been my aim to diminish the different kinds of supplies to a minimum. For this reason we buy but one grade each of writing, drawing and arithmetic paper, pencils, pens, penholders, rubber erasers, chalk, etc.

By this means the expenditures can be more exactly estimated and the principals of the several schools can attend more carefully to their distribution. In this connection it may be well to add that the principals of all the buildings keep an accurate account of all supplies which are received by them, and the teachers in turn have a list of the same received from the principals.

TRAINING SCHOOL.

From the many questions that are asked regarding the Nashua Training School, and from the lack of knowledge which evidently prevails among the citizens concerning the plans and working of this institution, I quote the following account written by the principal, Miss Shepard, giving an outline of its purpose and work:

"The Nashua Training School was organized in 1893, its object being to fit young ladies for the work of teaching in our public schools.

"To accomplish this two distinct lines of work are carried on by the pupil teachers; the first, that of the actual teaching and management of children; the other the study of education, including its history and principles, and the best methods of teaching.

"The course occupies one and one-half years and is divided into three terms of eighteen weeks each. Four pupil teachers are admitted each term, making the whole number twelve. These teachers are ranged in three classes: the juniors, those doing the first term's work; the middler's, those doing the second term's work; and the seniors, those doing that of the third term.

"The school proper includes six grades, and occupies four rooms of the Amherst street building.

"Each of the four rooms is under the care of a member of the senior class who is assisted by a middler and a junior. By this arrangement no young lady is given the management of a room until she has already spent a full year in the school.

"For the work of teaching, each room is divided into small groups, which are assigned to the respective teachers. By this means two objects are accomplished, the children receive more attention than would otherwise be possible, and each young lady has, during her course, an opportunity to teach in at least three different grades, and is held responsible for good teaching and good results. This work requires the most careful preparation on the part of the teacher. It means the writing out of a logical plan, the procuring of proper illustrations, the making of helpful devices and the study of the best way of presenting each subject.

"Throughout the course the young ladies are studying as well as teaching, but one-third of their time being given to systematic normal instruction.

"Different methods of teaching are illustrated aud discussed, courses in different lessons are outlined, plans for special lessons written, and teaching exercises given and criticized.

"To assist in this department occasional talks on educational subjects have been kindly given by the superintendent, and the state superintendent of public instruction. In addition to its regular work, the school is frequently called upon to furnish substitute teachers for the other schools of the city.

"Candidates for admission are examined by the superintendent in arithmetic, language, history, geography, physiology, botany, music, drawing, spelling, writing and composition. There are held two examinations each year, one during the summer vacation and one during the winter term. These examinations are open to all graduates of the Nashua High School and other schools of equal rank."

KINDERGARTENS.

The work of the kindergartens during the past year has been very satisfactory and they have now been introduced long enough to warrant my saying that their influence has been of marked assistance to those children who have had the advantage of their training.

The unfortunate feature of the kindergarten work is, that its influence does not extend far enough and that the children of those districts which might be benefited most by its teachings are unable to profit by it through lack of accommodations.

It was expected that when the Palm and Belvidere schools were completed there would be in each at least one room which could be used for kindergartens, but the increase in the number of children attending these schools necessitated the occupation of all the rooms for the regular grades.

It is my opinion that kindergartens will never exert their greatest possible influence until they are situated in those districts where the poorest people live. I would therefore advise the renting of tenements in the neighborhood of Ledge street and of the present O'Donnell school, into which we may gather the little children who are so much in need of kindergarten training.

SUBURBANS.

We have seven ungraded district schools lying within the city limits but situated from two to five miles from the City Hall. The number of pupils attending these schools varies from six to twenty each. The cost of maintaining suburban schools and giving the children an education, which of necessity is far inferior to that obtained in the graded schools, is fifty-eight per cent greater than the cost of educating an equal number of pupils in the city schools.

I believe it would be a great saving to close these district schools and hire some responsible man to bring the children

each morning into the city, and take them home after school at night.

In other places where this system has been tried it has resulted to the satisfaction, not only of the children, but also of the parents.

If there were room in this report, I could give long lists of towns where the plan of conveying the children to a central school has been in operation for a number of years.

By adopting this method with our suburban schools, the city could save at least one thousand dollars. That this is a conservative estimate may be judged by the fact that it cost the city last year three thousand one hundred and fifty-four dollars to maintain eighty-three pupils. It cannot be stated in this report what the exact cost would be to bring these children to the city schools, but it is evident that the sum could not equal the amount above mentioned.

WRITING.

The present system of vertical writing was adopted last August and has been in operation during the fall term. It is impossible at this early date to pass judgment on the new method. It seems evident, however, that many of the children who were troubled by the "slant hand" have little or no difficulty with the vertical system.

At present no work can be seen which was not done entirely with the finger movement, but it is to be expected that as soon as the children become familiar with the new forms of letters, the arm movement may be insisted upon and obtained.

TRUANCY.

Under the State Law each spring a census is taken of all the school children in the city. In every instance, where children of proper age do not attend, they are immediately brought into the schools. By this means very few children are able to escape the vigilance of our excellent truant officer.

PHYSICAL TRAINING.

For the past six years a system of Swedish Gymnastics has been in use in all our schools. The teachers follow the graded list of daily exercises and its constant use seems to have, in a measure, checked the tendency formerly so apparent in school children, of a poor carriage, round shoulders, and improper methods of breathing. In addition, the few minutes taken for drill during each session, serves to relax the mental tension and gives that freshness of mind so essential to clear thinking.

In this connection the military training in our High School should be brought to notice. For the past two months this has been under the charge of Captain H. R. King and through his efforts a great improvement has been effected in the department.

Besides perfecting the military organization, daily setting up drills have been instituted for both boys and girls.

STORM-BELL.

One of the perplexing questions which confronts the superintendent is the ringing of the storm bell.

In the first place I think it is the feeling of all teachers that our school year is none too long to complete the work mapped out for the several grades. The loss of three or four sessions during a term means the shortening of the school year by a week and necessitates the crowding of the work which would have been completed during that period into the time which is left. It would seem also that the parents of the individual pupils ought to be better judges of the physical condition of their children and their fitness for attending school on stormy days, than the superintendent.

It is an important factor to be considered in this connection, that the schools cost the city over three hundred dollars per day and, for this reason, the question of closing them for a session is a matter of considerable importance and one not to be lightly dismissed.

FIRE DRILL.

The fire drill in city schools is a matter of questionable utility and has been generally discontinued in the greater number of large cities. There is grave doubt as to whether a drill of this sort would have any practical value to children in a time of actual emergency.

It seems to be the general opinion of those who have carefully considered the subject, that in all cases of critical danger, the good behavior, and hence the safety of the children, will depend entirely upon the self-possession and coolness of the teacher. If the teacher, the one to whom the children instinctively look for guidance, is frightened and loses control of herself, the benefit of previous fire drills will amount to nothing. On the other hand, if the teacher is self-possessed, the children will quickly and cheerfully obey any commands she may see fit to give.

LIBRARIES.

As an important aid in directing the reading of school children, I believe school libraries to be of the greatest utility and, considering their cost, the benefit derived from them is much greater than from the supplementary reading, with which our pupils are supplied.

By the assistance of the state superintendent, Mr. Gowing, Dr. Underhill, Dr. Hammond and the city librarian, Miss Crombie, a list of one hundred and fifty books has been selected which are representatives of the best literature for boys and girls. The cost of this library will be less than one hundred dollars, and by placing one in each of the larger buildings great good might be derived by the pupils from its use.

A smaller number of books carefully selected from this with reference to the ages of the children ought to be placed in the buildings which have a less number of grades.

PROMOTIONS.

The opinion has been for a long time forming in my mind that the greater proportion of the children who enter our first grades, at five years of age, are too immature to profit by the teaching which they receive. Most children, between the ages of five and six would better be enjoying healthful games and out-of-door exercise instead of being placed under the necessary restriction of school work.

They have only begun to appreciate the material world about them and their minds are not yet ready to be burdened by the system of the modern school which through necessity, is to a greater or less degree artificial. If the child could enter one year later, his mind being more mature, could accomplish greater results in less time and with less effort.

I would therefore advise that no child be allowed to enter the first grade until he is six years old.

One exception to this plan ought to be made. Where children are unable to speak the English language, and we have many such, they should be allowed to enter a sub-primary grade at the age of four years, thus lengthening the school life of the children whose poverty often compels them to leave school early in life, in order to support themselves, but who especially need the help of the public shools.

I would also recommend that the course of study be so arranged in the sixth and seventh grades, that the ground alloted for those years be passed over, in a cursory and rapid manner, during the first eighteen weeks of school, emphasizing only the essential points; the remainder of the year should be devoted to a careful review of this work, with especial reference to the aid of the duller pupils.

By this means, children of remarkable ability may be promoted at the end of the eighteenth week, from the sixth to the seventh grades and thus lose nothing of the general work in these two years of school.

At present the only way of taking care of these bright child-

ren is to give them a double promotion but this necessitates the loss of one entire year of school-work, which loss always proves of great detriment to the child.

TEACHERS.

I have only commendation for the results achieved by the corps of teachers during the past year. The work throughout the city is becoming more and more uniform, which greatly facilitates the transfer of children from one school to another.

The special teachers in music and physical training have entered upon their work with a zeal which promises excellent results. Their reports will be found in another portion of this work. In closing this report I wish to express my obligation to the teachers of Nashua, and to the Board of Education, whose kindly bearing has been of the utmost assistance to the superintendent during the past year.

Respectfully submitted,

JAMES H. FASSETT.

REPORT OF PRINCIPAL OF HIGH SCHOOL.

Mr. James H. Fassett, Superintendent of Schools:

SIR: In compliance with your request, I submit the following report for the High School.

My last report was made six years ago. Since that time some important changes have been made in the organization of the school.

The increased number of pupils, and the broadening and enriching of our course of studies have twice necessitated an increase of our teaching force. Our corps of teachers, at present, consists of two men and six women. I wish in passing, to say that it is, in my judgment, desirable that children, while passing through their school life, should to a greater extent than they now do, come in contact with men as teachers. In the home either the mother's or the father's influence is sadly missed if the child is deprived of either parent; in like manner education is not full and well balanced that is conducted exclusively by either men or women. I consider the number of teachers in the High School still inadequate. Efficiency I fear is sacrificed for economy. To particularize: the teacher of French, devoting her time exclusively to that branch of study, is unable to do the full amount of work demanded, except by combining two grades in one class, and by forming classes in some cases much too large for the most effective work. The teacher in German is also handicapped in a similar way. Again, little opportunity is afforded to assist pupils in their study hours, especially in consulting reference books. One of the best thoughts in current educa-

tional reform is that a pupil should learn to use, and should use largely, reference books; should in his study of history and literature use a library, as he uses a laboratory in science. We could most profitably employ a teacher every hour of the school day in supervising our reference library. Again, the principal's time is now so largely taken up with instruction that he has too little opportunity for the work of supervision. He should be more familiar with the work of his assistants than present conditions make it possible for him to be.

I have alluded to changes in organization as well as numbers in our teaching staff. I wish to speak more particularly of these changes. It was thought desirable to specialize the work of each teacher to a greater extent than had hitherto been done, and to give to each teacher a sense of responsibility for all the work in some one department of study, even in cases where two or more teachers were working in the same subject. With this end in view subjects were shifted about to some extent, and the "departmental" feature as it is called made more prominent. Since this change we have had one teacher in French, one in History, one in Latin and English, one in Greek and German, one in Physics and Algebra, one in Mathematics and English, with two remaining, the principal and sub-master, whose work is somewhat more varied. I have been greatly pleased with the good results of this change in organization. I am satisfied that it was in the right direction.

The school is cramped for room—not for room to sit and stand in—but room to do the work in the best way and to the best advantage. Recitations are held almost every hour in each of the class rooms. Seldom is a quiet room afforded for purposes of study. The principal's office is used the present semester two or three times each day for small classes. Even black board work is done there and crayon dust inevitably made to be sifted over the books, large numbers of which are constantly upon the shelves. If the High School were given the use of the entire building, every room could profitably

be used at once, to say nothing of a prospective increase in attendance. The next entering class is likely to number ninety to one hundred. I hardly see how, in the event of so large an addition, the school can be accommodated even with sittings without resorting to a mixing of classes in the same room, with great attendant inconvenience.

An improvement I have long been looking for is a room suitably equipped for work in Biology—that is to say, in Botany and Zoology. We have received in the last two years some very important accessories in the form of compound microscopes, microscopic specimens, charts, etc., which have been most acceptable, and have been of great assistance in the study of Botany; but we greatly need a special room provided with several tables, and the simple tools needed for examining objects in the vegetable and animal kingdom. The expense of fitting up such a room would be small. The difficult thing is to obtain the room.

I trust that it will seem feasible this year to make the changes in the chemical laboratory recommended by the superintendent a year ago. The improvement in sanitary conditions and in general convenience, which would thus be made, cannot be fully realized by those who have not given the matter particular examination.

The school has maintained, I believe, a good standing as a college preparatory school and an increased number of its graduates are entering college year by year. Of the last class, numbering thirty-three, twelve have entered higher institutions—eight boys and four girls. Three entered Dartmouth; two, Durham; two, Boston University; one Worcester Polytechnic; two, Smith; one, Wellesley; one, Baltimore College for Women. There are now in Dartmouth College nine students, and in the new Hampshire College at Durham five students, who took the preparatory course in the Nashua High school, and I can justly say that they are no discredit to the school. Graduates of this school are admitted on certificate to all the New England colleges

except the two or three institutions which admit no student whatever except upon examination.

Important changes have recently been made in the department of military instruction. Captain King's report accompanying my own, makes it unnecessary that I should say anything upon this subject, except to express the great satisfaction that I feel in the improved status of this part of our work. I feel that the Board made a most fortunate selection in appointing the present instructor. He has met with my hearty approval in all that he has done, and has put the military department on a thoroughly sound basis, making it harmonize perfectly with the other branches of our work.

The instruction and training in physical exercise for the girls has also been carefully and successfully conducted by Miss Hodgdon, and at present the pupils of both sexes are receiving substantially equal advantages in this line.

In closing let me urge again upon the attention of the superintendent and Board of Education the question whether some change ought not to be made with a view to the better accommodation, and the better organization of the schools, or grades, at present occupying the Spring street building. If the High School could be given the use of the entire building, and the lower grades provided with accommodations elsewhere, it would be a great advantage to all concerned. It seems to me that some such change must needs be made in the near future. It is well to give it a timely consideration.

Respectfully submitted,

LEMUEL S. HASTINGS,

Principal High School.

REPORT OF DIRECTOR OF MUSIC.

"Music is at home a friend, abroad an introduction, in solitude a solace, in society an ornament."

NASHUA, N. H., January 1, 1898.

To Mr. James H. Fassett, Superintendent of Schools:

DEAR SIR:—This, my first report of the course of study in music in our public schools must of necessity, to a certain extent, treat a question of public interest which was naturally propounded at the time of the resignation of my predecessor, Mr. E. W. Pearson, and previous to my election to the office.

The question was this: Is it of any advantage to study music in the public schools? The answer then would have necessitated a reply in the public press, but at this time a few words in the affirmative may be opportune.

Answer: "Singing should be so taught to the child that his entire being, mental, physical, moral, industrial, will be vibrant with health, elasticity, energy and cheerfulness."

The advantages derived from the study of vocal music are many and varied, but particularly from a moral point of view this study is of infinite value. It was Phillips Brooks who said, "A school song in the heart of a child will do as much for its character as a fact in its memory, or a principle in its intellect."

The purpose of moral education is not necessarily to add to a pupils knowledge, but to affect his will. The sentiment of

a good song is therefore exceedingly helpful in developing and strengthening in the child the sense of love for that which is beautiful and good and because the impressions of infancy and childhood are so lasting, the study of vocal music becomes a great factor in the formation of character.

From a physical standpoint the study and practice of singing is an important factor, being conducive to and a generator of good health, strong lungs, large chest, and quick and perfect circulation.

On the strength of both German and American physicians, statistics show that "in the United States twelve out of every hundred persons die from consumption alone, while in Germany, less than one per cent. of the deaths are from consumption, which is accounted for by physicians and scientists as being the direct result of the universal practice of vocal music in the latter country, and the lack of it in this country."

Intellectual force: From this standpoint one may with all truthfulness say that music when properly taught, embodies more discipline for character, heart and mind, for success and prosperity in the student than almost any other study.

One who has had the supervision of music in the public schools of one of our large cities has said, "I have never found a room that was good in music in which the teachers did not tell me that the pupils were good in arithmetic."

In our own city during the fall term just ended, one of our fifth grades was disciplined by your director, for lack of attention and application during the music study period, and was kept in school during recess. The study immediately following being geography the teacher was somewhat apprehensive of good results in the latter study; after the session, however, the teacher of said grade declared to me that her apprehensions had all been in vain, as she never had had a better period of study and recitation in all her experience. "The pupils," she said, "seemed to have entered the spirit of application and determination to master the subject at hand, and

the zeal with which they worked to this end was something gratifying."

Another of our teachers made the statement in a recent teacher's meeting that at times when her pupils entered the schoolroom smarting under some disappointment, petty quarrel among themselves, or otherwise in bad humor, all the discipline required to dispel chaos, and restore coherency and harmony is to revert to some song with a text conducive to calmness and tranquility and sing: at the close of which, order and kind feeling for one another invariably prevail.

THE MISSION OF MUSIC.

The mission of music in the schoolroom is not of necessity, to turn out professional singers and musicians.

It would be as reasonable to expect every pupil who studies drawing during his school life to become a skilled mechanical draughtsman or a civil engineer; again, are all pupils of our public schools to become, one a Shakespeare, another a Milton, and so on; for the simple reason that the classics have been a part of the school course?

The object of modern education is to draw out the powers and train the human mind, and to give a practical application of them to matters pertaining to the well-being of humanity. All studies in the school course serve a dual purpose; firstly, the leading out and training of some power of the mind and body; and secondly, the supplying of a store of knowledge for the mind, and activities for the physical faculties of the body, applicable to the affairs of life. To this end there is no study in the school curriculum that will do more for the student in the way of physical, intellectual and moral aggrandizement than music.

THE WORK IN THE SCHOOLROOM.

At the time of my election to the directorship of music to finish the unexpired term of my predecessor in May, 1897, I found the work in our schools in very good condition; particularly in the grammar grades. In the High School owing to the lack of time the work of the school as a whole was sus-

pended and the time at our disposal before graduating exercises devoted to the senior class. The class worked arduously and at the graduating exercises rendered a program of the best music by some of the leading American composers in a creditable manner and to the utter satisfaction of parents and public.

As much as possible in all the grades below the High School the work was carried on in the same line as under my immediate predecessor.

FALL TERM.

At the opening of the fall term we were enabled with the assistance and co-operation of the several committees and the board of education to supply new musical material in the grades where it was deemed necessary, and the result has been a new impetus on the part of the pupils and much enthusiasm with our teachers.

Primary grades: In the first grade the work has been mapped out by your director with the object constantly in view of creating in the child the love for song and study that is so essential to our work, with carefully selected rote songs; also to cultivate a pure tone and a distinct articulation in conjunction with the fundamental principles of our study—sight reading—by carefully and systematically graded blackboard exercises prepared by your director.

The second year work is the advanced blackboard work together with little songs sung from staff notation at first sight.

The third grades throughout the city have been supplied with the first reader of the Educational music course. This being the first of these pupils using music readers, the inauguration was a welcome one for both the teachers and pupils.

Intermediate grades: In the fourth grades the second reader of the Educational music course has been introduced with the most gratifying results. In this grade we also take up the transposition of keys.

The fifth grades have been supplied with the third reader of

the Educational music course. This reader establishes two part singing.

Grammar grades: In the sixth grades the fourth reader of the series has been introduced.

The reader reviews the work of the previous readers and treats all the keys, major and minor, and introduces three part exercises and songs.

It will be well for me to say at this time that the selection of the Educational music course has proved a wise and profitable one. The course is so well graded and each new problem so systematically approached and developed that our pupils and teachers do not find it any great trouble to master obstacles heretofore unsurmountable. The exercises in the whole course are conducive to quick perception of musical phrases and perfect rhythm, while the songs are bright and pleasant. It could not well be otherwise when the fact is taken into consideration that the course was compiled by men who are in the front rank of American educators.

The seventh grades are studying from the reader heretofore used, the New Fourth reader of the National music course introducing the F clef in three part exercises and songs. The eighth grades are using the same reader (New Fourth) in the advanced studies and part songs.

The ninth grades are using the Advanced fourth reader for upper grammar schools. This reader reviews the major and minor keys and prepares the pupils for the work to be carried on in the High School.

High School: The course of study for the High School comprises part songs, glees, and choral music in oratorio form. The four classes of the High School are united in a grand chorus in the High School hall once each week for a period of fifty minutes. This choral class has under preparation at the present time a sacred Cantata for mixed chorus and soprano, alto, tenor and bass soloists. The work is the story of the resurrection of Lazarus, taken from the Holy Scriptures and set to music by Mr. P. A. Schnecker of New York City. It

is the intention of the High School to sing this work before the public with the assistance of local solo talent, during the present school year. In this work the High School has the very efficient services of Mrs. J. H. Tolles as pianist and accompanist.

Training school: The normal classes at this school are carried on once each week for the preparation of the teachers for grade work.

The kindergartens: Although these schools do not come under the supervision of your director, the schools have been visited and nothing found wanting in the singing of their bright little motion and rote songs.

THE AIM.

In all his work, your director has had the following in mind for his text, from the pen of Mr. Thomas Tapper, of Boston, Mass.

"There should ever be present with the teacher the thought that music must be led out of the individuality, not driven into it."

"The teacher's knowledge is not a hammer, it is a light."

CONCLUSION.

With the expression of my gratitude for your kind co-operation, and the privileges and courtesies received at the hands of the Board of Education, committee on music, principals, teachers, pupils and public, I may in all truthfulness close my report with what another has said.

"The spirit of harmony and good will with which I was received and which has continued to grow from time to time, has served to lighten my labors and responsibilities. It affords me very great pleasure to acknowledge this generous support from so many sources. My only anxiety is to prove myself equal to my opportunities and to do the work with which I am intrusted in a manner worthy its importance."

Respectfully submitted,

E. G. HOOD,

Director of Music.

Report of Military Instructor.

HEADQUARTERS
NASHUA HIGH SCHOOL BATTALION.

January 28, 1898.

Mr. James H. Fassett, Superintendent Nashua Public Schools.

SIR:—In compliance with instructions I herewith submit my first report of the Military Department of the Nashua High School.

As I was not appointed until Nov. 1, 1897, this report must necessarily be somewhat brief, but will aim to give an outline of what has been done and the outlook for the future.

The intention of military drill in public schools and colleges seems to be the development of the scholar both physically and otherwise, rather than to make soldiers of them. Consequently I have endeavored to impress this very important fact upon the minds of the cadets.

A short setting up or gymnastic exercise is held daily in each class room in which all take part. These exercises, if persisted in, cannot fail to produce good results.

Battalion drill is held every Monday, during school hours, from 12 to 1 o'clock. This is made a day of ceremony, and no individual instruction is given. Occasionally a written military test takes the place of this drill. A school for officers is held every Wednesday from 1:10 to 1:50 o'clock, and has already produced good results. Officers are encouraged to read military articles, which are likely to be of interest to all and to ask questions concerning the Drill Regulations.

Squad drills are held Tuesdays and Fridays from 1:10 to 1:50 o'clock, thus all are afforded an opportunity to receive individual instruction.

It is optional with the cadets whether they attend these drills or not, but thus far there has been an average attendance of about twenty-five. This I think indicates a desire on the part of many to become proficient in the duties of a soldier.

The condition of equipments delayed the instruction for a time, but the military committee has provided the additional equipments that were most needed, and has authorized the repairing of those that were worth it.

Each cadet is at present provided by the city with rifle, bayonet and bayonet scabbard, white waist and cross belts.

The procuring of "West Point" chevrons for all officers is a step in the right direction, as the financial condition of the cadets will not have to be considered in making appointments. If the city would go a little further and procure uniform caps for all, and at least uniform coats for the officers, the battalion would then present a very neat and soldierly appearance.

The wearing of any part of the uniform continually has a tendency to cheapen it, and, as there are only a few owning uniforms now, I would recommend that the practice be discontinued. With the exception of the officers I feel that the battalion should either be all in uniform or all in civilian's dress. The equipping of the cadets with white cross belts will produce a uniform appearance, and the absence of uniform clothes will be less noticeable.

At the beginning of the school year there was no military organization in the High School. A second lieutenant and several non-commissioned officers who had been officers in the former volunteer company were permitted to retain their rank, pending a reorganization of the cadets. Ordinarily these officers would have been very useful as squad instructors, but the new manual of arms which was authorized by Adjt. Gen. Ayling of this state on Oct. 12, 1897, put all on practically the same footing. This, together with the fact that only about

one-third of the whole number (87) had received any military instruction whatever, made progress slow for a time.

The cadets as a whole have shown a decided interest in the military department, and for the most part performed their duties cheerfully.

I wish particularly to call attention to the officers of the former volunteer company who, with a few exceptions, have aided me in every way possible to perfect the organization as it now exists. In the appointment of officers it was thought best to depart somewhat from the former methods, and the military instructor was given power to appoint the officers with the approval of the principal.

Appointments were based upon the deportment and standing in all studies. Thus proficiency in the military department is only one of the several qualifications necessary for a cadet to possess to make him eligible for office.

A written military test is held monthly. The results of these tests will be accounted in the cadet's general standing, thus putting the military department on the same basis as the other studies.

Military text books have been procured for all the cadets, and the first test showed a great need of them. It is to be regretted that, after nearly four years of drilling, many of the cadets are not able to answer questions in the school of the soldier. I shall feel compelled this year to confine my questions to the school of the soldier for all classes.

The strength of the battalion is now 14 officers and 71 privates, two cadets having left school since Nov. 1.

It is divided into three companies, with the following officers: An adjutant with the rank of first lieutenant. A sergeant-major, who also acts as quartermaster-sergeant. Each company has one captain, one first sergeant and two sergeants.

A permanent organization was effected on Monday, Jan. 10, 1898, when the entire High School was assembled in the hall to witness the presentation of the chevrons to the newly appointed officers.

The exercises opened by singing, led by Mr. Hood, the musical director. Principal Hastings then addressed the school concerning the military department, after which the officers were presented with their chevrons. This was followed by remarks by President Baker of the military committee, and State Superintendent Gowing and James H. Fassett, superintendent of public schools. The singing of America concluded the exercises.

In closing I wish to express my thanks to the members of the military committee, Superintendent Fassett, Principal Hastings and the High School teachers, all of whom have aided me in every way possible.

Principal Hastings and Sub-Master Noyes have been especially active, and to them much of the credit is due for the success of this department thus far. The latter has taken such an interest in the drill that I finally induced him to accept the position of sergeant-major and acting quartermaster-sergeant, a position which he is filling with credit to himself and to the battalion.

By spring I feel sure that the battalion will be second to none as regards discipline and soldierly appearance.

I am, sir, very respectfully,

Your obedient servant,

HARRY R. KING,

Military and Physical Instructor.
